Boolean Algebra $A + AB = A$ - Mathematics Stack Exchange

For graphing, the angle's initial side is the positive x-axis; its terminal side is the green line, because angles are drawn going anti-clockwise. The curved green line shows the given angle. Even before having drawing the angle, I'd have known that the angle is in the first quadrant because 30° is between 0° and 90° . The reference angle, shown by the curved purple line, is the same as the ...
