Headache is the symptom of pain in the face, head, or neck.It can occur as a migraine, tension-type headache, or cluster headache.There is an increased risk of depression in those with severe headaches.. Headaches can occur as a result of many conditions. There are a number of different classification systems for headaches.

Headache - Wikipedia

Dementia manifests as a set of related symptoms, which usually surface when the brain is damaged by injury or disease. The symptoms involve progressive impairments to memory, thinking, and behavior, which negatively impact a person's ability to function and carry out everyday activities.Aside from memory impairment and a disruption in thought patterns, the most common symptoms include ...
